

Welcome to the Book Club!

This is a basic manual to use the **Book Club** website.

The **Book Club** is a one-page website. All the functionalities of the website are on the home page. There are two main categories on the **Book Club** website: **Books** and **Users**.

In this user manual, we will talk about how both can be used.

User

In this category, you can see all users registered in the **Book Club** and add new users.

See all users:

To see all users, click on the **Show all users** button on the top of the users' section. All users will appear below the user section in chronological order (the newest user above).

Add a new user:

- Name field:
Insert the username (with a minimum length of 5 characters) into the field Name
- Avatar field:
Copy the URL/URI of the image and paste it into the field Avatar (refer to the end of the manual to see how to copy the URL/URI using Chrome, Firefox and Edge)

Press **Submit user** for the user to be saved into the **Book Club** database.

If there are errors, they will be displayed below the **Submit user** button.

Book

In this category, you can see all books available in the **Book Clube**, the book's reviews, add new books and reviews.

See all books:

To see all books, click on the **Show all books** button on the top of the books' section. All books will appear by the right of the book section in chronological order (the newest book above).

Add a new book:

- Title field:
Insert the book's name to the field Title
- Author field:
Insert the author's name to the field Author
- Cover field:
Copy the URL/URI of the image and paste it into the field Cover (refer to the end of the manual to see how to copy the URL/URI using Chrome, Firefox and Edge)
- Owner field:
Choose from the dropdown the name of the user who owns the book
- Availability field:
Choose from the dropdown if you are registering the book for trading with other users, for borrowing to other users, or if it is available for both

Press **Submit book** for the book to be saved into the **Book Club** database.

The new book will be exhibited as the **Most recent book** (below the book section), as well as in the list of all books.

If there are errors, they will be displayed below the **Submit book** button.

See book details:

To see more details about a book, click on it and a new section will open by the right of the book section. This new section will show the owner of the book, what is it available for, and its reviews. All reviews will appear in chronological order (the newest review above).

Add a review:

- Text field:
Insert a review text between 5 and 300 characters
- User field:
Choose from the dropdown the name of the user who is writing the review

Press **Submit review** for the review to be saved into the **Book Club** database.

The new review will be exhibited above all other reviews.

If there are errors, they will be displayed below the text field.

Copy image URL/URI

Chrome	Firefox	Edge
Right-click the image and select Copy image address	Right-click the image and select Copy Image Location	Right-click the image and select Copy image link
